To obtain images you will choose from an online gallery using the Collections or individual portrait prices.

Portrait Prices

The high-quality portraits provided by Blue Peach Photography are actual photographic prints on Kodak Lustre paper with a protective coating. The quality and realistic color cannot be obtained with ink-jet processes typically used in many retail and online print shops. All portraits 11x14 or larger are mounted on mat board to prevent warping.

Digital images are prepared for portraiture through an extensive retouching process to remove blemishes, smooth skin tones, and add artistic effects.
